▼ A BALANCED DIET:

According to Canada's Food Guide to Healthy Eating (for people four years and over):

Different People Need Different Amounts of Food

The amount of food you need every day from the 4 food groups and other foods depends on your age, body size, activity level, whether you are male or female and if you are pregnant or breast feeding. That's why the Food Guide gives a lower and higher number of servings for each food group. For example, young children can choose the lower number of servings, while male teenagers can select the higher number. Most other people can choose servings somewhere in between.

Grain Products	Vegetables & Fruit	Milk Products	Meat & Alternatives	Other Foods
Choose whole grain and enriched products more often.	Choose dark green and orange vegetables more often.	Choose lower fat milk products more often.	Choose leaner meats, poultry and fish, as well as dried peas, beans and lentils more often.	Taste and enjoyment can also come from other foods and beverages that are not part of the 4 food groups. Some of these are higher in fat or calories, so use these foods in moderation.
recommended number of servings per day:				
5-12	5-10	Children 4-9 years: 2-3 Youth 10-16 years: 3-4 Adults: 2-4 Pregnant and breast-feeding women: 3-4	2-3	

▼ ALCOHOL INTAKE:

1 drink equals:

		<u>Canadian</u>	<u>Metric</u>	<u>U.S.</u>
1 bottle of beer	5% alcohol	12 oz.	340.8 ml	10 oz.
1 glass wine	12% alcohol	5 oz.	142 ml	4.5 oz
1 shot spirits	40% alcohol	1.5 oz	42.6 ml	1.25 oz.

▼ SAFE SEX:

Refers to the use of methods of preventing infection or conception.

WHAT DOES THE SCORE MEAN?

85-100	70-84	55-69	35-54	0-34
EXCELLENT	VERY GOOD	GOOD	FAIR	NEEDS IMPROVEMENT

NOTE: A low total score does not mean that you have failed. There is always the chance to change your lifestyle — starting now. Look at the areas where you scored a 0 or 1 and decide which areas you want to work on first.

TIPS:

- 1 Don't try to change all the areas at once. This will be too overwhelming for you.
- 2 Writing down your proposed changes and your overall goal will help you to succeed.
- 3 Make changes in small steps towards the overall goal.
- 4 Enlist the help of a friend to make similar changes and/or to support you in your attempts.
- 5 Congratulate yourself for achieving each step. Give yourself appropriate rewards.
- 6 Ask your physical activity professional (CSEP-Professional Fitness and Lifestyle Consultant), family physician, nurse or health department for more information on any of these areas.
